Accelerated Bachelor's Degree

I love the way that the staff made me feel. I never felt like a number. The personal

Doctor's Degree

I had an amazing experience in the LICl program. The faculty were caring and professional experts who were dedicated to making sure I had a great academic experience. My dissertation chair, Dr. (Redacted), was critical to my success. She challenged me to be my best while supporting me at every step of the way. She was the perfect chair for my doctoral journey.

In addition to my coursework, the mentorship of Dr. Redacted made the entire experience worth it. She truly is a blessing and a gift to CUW. I don't think I would've had the experience I did if it wasn't for her.

I am a different person today because of my experience at Concordia. There WAS a faith aspect in every class, which helped me to realize the Lutheran Christian foundation of CUW, which was my hope. The dissertation process was grueling but excellent. The entire program and journey were excellent beyond my expectations. Thank you! I thank God!!

Overall, my experience in the LICl program was very positive. (The professors) were wholeheartedly invested in my success as a student and beyond. Not once did I ever feel as though I was on my own personally, professionally, or spiritually.

The staff are professional and truly have student learning at the core of their instruction. I was never alone throughout the journey.

Overall I had an excellent experience at CUW SOP! The pharmacy professors are beyond student focused and I believe I received the best pharmacy education at this institution. Thank you!

Thank you for a fantastic program. I am so grateful for my Concordia experience.

My experience at CUW was truly rewarding. Not only did I grow as a Christian, but I also grew in the following areas: enhanced listening skills; expanded worldview; patience, empathy, and a strong commitment to servant leadership. I thank the faculty and staff of CUWSOE for providing me with encouragement and support throughout my journey.
